

KOLEKTOR

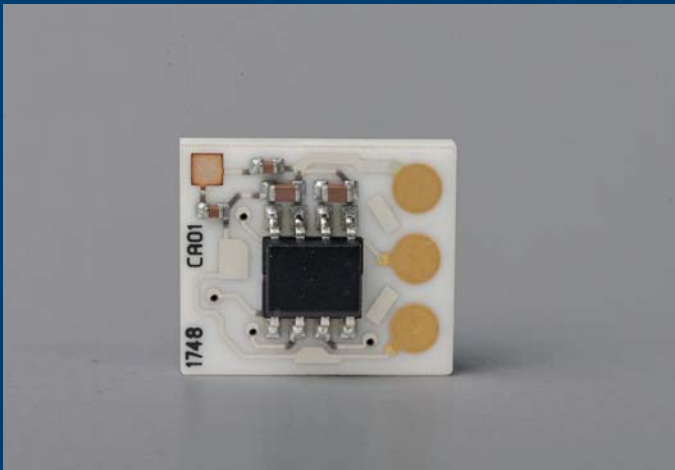

High volumes O.E.M. platform solutions

- ▶ Large volume, High performance, Low Cost O.E.M. applications
- ▶ Full internal protection against Humidity
- ▶ Direct contact with aggressive media
- ▶ Easy integration in automotive and industrial applications

High volumes O.E.M. platform solutions

LPQ platform

Dual sensor: Pressure + Temperature (optional)
Rectangular/square shape: suitable to stay within a 18 mm diameter circle
Low profile cell: 3.5 mm in height including electronic components
Measurement type: Gauge, absolute
Rated pressure range: from [-1/0 to 3] bar up to [0-80] bar*
Operating temperature range: -40°C + 150°C

*Analog or digital output according to customer requirements
other ranges available on request

MSQ platform

Dual sensor: Pressure + Temperature (optional)
Rectangular shape: 17.4 mm x 11.4 mm
Low profile cell: 3.5 mm in height including electronic components
Measurement type: Gauge
Rated pressure range: 4bar to 40bar
Operating temperature range: -40°C + 150°C

Analog or digital output according to customer requirements
